## REPORT OF THE SCHOOL BOARD.

---

The division schools during the past year have averaged twenty-nine weeks, with the exception of those in Divisions 2 and 3. In the former there was a fall term of ten weeks and a winter term of nine weeks, and in the latter a spring and fall term of each ten weeks. The average number of weeks reported is the largest for many years. A larger number of pupils have availed themselves of the advantages of the division schools than for some years. The partial grading of our schools has been attended with much success, as is shown in the fact that of the twenty-six to thirty pupils in Division 8 all read from the same reader, and the studies were so arranged that only eight to ten recitations were required daily, thus giving the teacher a longer time with each recitation, and better results obtained.

The high school, under charge of Prof. F. L. Pugsley and Mrs. L. A. Brown, has been very prosperous, and good progress has been made in the various branches of study that have been pursued in it. Thoroughness in study has been the chief aim, and that this has been secured in a large degree is proven by the high character of the examinations at the close of each term. The fall and winter terms have consisted of twelve weeks each, and these with the present term, to continue eleven weeks, will make thirty-five weeks for the year. With the large number of weeks in the high school and in the division schools, your committee feel confident that but few towns, if any, have better advantages for the education of the rising generation than has ours, and we express our gratitude to the people of the town for their interest in educational matters, assuring them that the utmost pains have been taken to secure the best results for the money expended. The unexpended balance of last year's appropriation, together with the tuitions of the present term and funds on hand, will be sufficient to meet all demands against the high school, and leave a small balance in its favor.

During the year a full set of the International Encyclopædias fifteen volumes, have been purchased for the use of the students of the High school. More than one half of this expense was contributed by the pupils of the school by means of their very pleasing and instructive entertainments, and most generously donated by them. Also, through the patriotism and liberality of the pupils and their friends, an elegant flag has been floated near the school-house in Division 8, and a nice clock has been placed in the school-room, both of which acts are most highly commendable.

During the year the school house in Division 12 has been modernized and new furniture placed in it, making a very pleasant and attractive schoolroom. There are only two school houses in town —those in Divisions 2 and 3—but what have modern furniture in them, and it is hoped the schools in these divisions will be so prospered that the school houses may receive due attention and receive the benefit the others have.

Particular attention is called to the roll of honor, and yet this does not say all that is needed, for the different registers show that of the pupils attending our schools the average mark in deportment was Excellent. Your committee are pleased to note the marked improvement made during the past year, in the interest shown by parents and friends of the pupils, in attendance at the different examinations, and at other times during the sessions of the schools, as shown by the registers. This is a great step forward, and one of the utmost importance, assuring the pupils as it does of the interest taken in them and in their advancement, besides greatly encouraging the teachers. Hoping that our schools will continue to prosper and a higher mark in proficiency be obtained, this report is respectfully submitted.

JOHN C. COGSWELL,

## REPORT OF TRUSTEES OF HENNIKER FREE PUBLIC LIBRARY.

---

The books have been called in and examined by the trustees, and found in good condition; a few volumes need to be rebound. There are 1,400 volumes of bound books upon the shelves, besides quite a collection of books in paper covers, and magazines.

Donations of books or magazines have been received from Silas G. Gage, Willis Howe, Dr. Daly, Miss Georgianna Patterson, Miss E. J. Buckman, Miss Annie Newton, Mrs. Charles Darling, Mrs. Henrietta Sayward, John Gutterson, and from several citizens of the town, and four pictures in their frames from Mr. Willis Howe; and Mr. Emerson has made his usual reduction of \$12 from the rent.

More than 7,000 books have been taken from the library during the year, about two thirds of the families in town availing themselves of the privilege, and the trustees feel that, taking into consideration the number of times the books have been read, they have been remarkably well cared for.
